

WorldDoc 24/7™ – An Interactive Consumer Care Management System

WorldDoc 24/7 collects, analyzes and integrates an individual's medical, prescription and personal health data to provide a comprehensive care management solution that includes personalized medical goals, care gap identification and personalized, actionable programs and communications. WorldDoc's complete integration of health information provides a more personalized solution to total health management.

The relevance and quality of the personalized WorldDoc information is an integral factor in ensuring an individual's engagement, making more informed healthcare decisions, reducing costs and improving health outcomes.
