sanction information

Education and specialty training

WorldDoc 24/7™ collects, analyzes and integrates an individual's medical, prescription and personal health data to provide a comprehensive care management solution that includes personalized medical goals, care gap identification and relevant, actionable communication.

The relevance and quality of the personalized WorldDoc information is an integral factor in ensuring an individual's engagement, leading to more informed healthcare decisions, reducing costs and improving health outcomes. WorldDoc's complete integration of health information provides a more personalized solution to total health management.

With HealthGrades in place, WorldDoc users will not only be able to find the highest-quality and most cost-effective hospitals through HealthGrades' quality ratings, but they can also research and compare individual physicians and specialists.

Benefits

- Enhances engagement of members through active participation in evaluating and choosing a high-quality physician or hospital.
- WorldDoc members are able to evaluate symptoms, review diagnosis information and suggested treatments and get comprehensive information on potential physicians and hospitals all in one place.
- Further guides WorldDoc members to better health and lower costs with the ability to get actionable quality and cost information on hospitals according to medical specialty.

Contact WorldDoc to find out how your organization can promote a clear understanding of healthcare choices for your members.

Compare	Hospital Name	Rank	Quality Rating	Distance (miles)
<input type="checkbox"/>	St Joseph Medical Center Wichita, KS	1	★★★★★	2.6
